

RIDING A BIKE – FOR PLEASURE AND HEALTH

September 20, 2019, Prishtina

Pursuant to the schedule of weekly activities within the framework of the European Mobility Week, Friday was reserved for the "Riding a bike – for pleasure and health" activity. This activity of riding bicycles began at 12.00 in the Zahir Pajaziti Square where Muhedin Nushi, deputy Mayer of Prishtina Municipality, was also present.

In addition to the organizers, representatives from the Municipality of Prishtina, Tempulli College, AMRKS and fans of hiking and cycling, participants included also junior high school students of "Qamil Batalli", who proved their technical skills in cycling. The polygon along with the simulation of roads, crossroads and traffic signs were set up specifically for marking this activity by AMRKS.

TEMPULLI COLLEGE HOSTED THE ROUNDTABLE DISCUSSION ON "WALKING, CYCLING AND PUBLIC TRANSPORTATION"

September 18, 2019, Prishtina

On Wednesday, 18 September 2019, on the third day of the celebration of the European Mobility Week organized by the Municipality of Prishtina, Tempulli College hosted a discussion on "Walking, cycling and public transportation". This roundtable brought together professors from Tempulli College, Pristina municipality officials and other bicycle activists.

The table was opened by Mr. Krasniqi from Tempulli College, who stressed the necessity of creating a safe and efficient system for pedestrians and cyclists with the aim that their

movement, in addition to being a practical and enjoyable form of travel, will also impact the balance of urban transportation in the city. Every day we encounter problems and concerns about pedestrian safety on the road. Walking and cycling tracks, specifically the existing infrastructure, does not sufficiently encourage citizens to either walk or use bicycles.

Other participants in the discussion talked about this week's activities with a particular focus on promoting walking as a healthier and more preferable alternative to using cars for short trips.

4TH NATIONAL SCIENTIFIC CONFERENCE "ROAD SAFETY AND ROAD USERS IN ALBANIA"

Tirana, 23 May 2019

Tempulli College Professors presented three scientific papers at the 4th National Conference "Road Safety and Road Users in Albania", which was held in Tirana at the premises of the Albanian Security Academy.

This conference brought together representatives of institutions from Albania and Kosovo and representatives of international institutions operating in Albania. In a greeting speech to the Conference, representatives of the Albanian Ministry of Interior, the Albanian Parliament, the Police Directorates of Albania and Kosovo, the World Health Organization Representative in Albania, the Kosovo Academy for Public Safety, professors, assistants and heads of higher educational institutions in Albania and Kosovo.

The scientific papers of the professors from Kosovo, specifically from Tempulli College, were highly praised by the organizers and the broader audience. It was a pleasure that, apart from the professors of Tempulli College, this conference was also attended by some former graduate students of Tempulli College who are now engaged in professional work in the field of traffic and transportation.

7th EDITION OF THE ACTIVITY "ROAD SAFETY"

15 April 2019 – 10 May 2019

College Tempulli and the Kosovo Association of Motorization "AMRKS" in cooperation with the Ministry of Education, Science and Technology and the support of partners from the Kosovo Forum for Road Safety organized the seventh edition of the activity "Road Safety".

The activities developed for seven-year now under this project have yielded fruit in terms of education and awareness of road safety students, while also helping to increase students' knowledge on traffic rules and signs.

This year, MEST has decided that part of this edition will be the schools from the following municipalities: Drenas, Dragash, Istog, Klinë, Fushë Kosovë, Mitrovica, Lipjan, Obiliq, Podujeva, Prishtina, Vushtrri and Ferizaj.

Agenda:

15 April - 19 April 2019: Theoretical part

The working groups visited the selected participating schools, where lectures were held about the culture of behavior in traffic.

May 10, 2019: Practical part - "Zahir Pajaziti" Square in Prishtina

Each of the schools was represented by three students from grades 6, 7 and 8. Competing students demonstrated their knowledge in recognizing traffic signs and rules as well as technical skills in bicycle riding. Upon analyzing the results of the students, the champions of this edition were also announced.

In addition to bicycling, the agenda of this day also included activities in support of the 5th UN Global Road Safety Week and the SaveLIVES #SpeakUp campaign, as well as a number of fun activities for the public.

ACTIVITIES IN KOSOVO SUPPORTING THE 5TH UN GLOBAL ROAD SAFETY WEEK

6-10 May 2019

Requested by the United Nations General Assembly, the Fifth United Nations Global Road Safety Week was held from 6-12 May 2019. This Week was focused on leadership for road safety. It is widely acknowledged that stronger leadership for road safety is needed to achieve the Global Goals. Therefore it launches action through the ongoing campaign: Save Lives - #SpeakUp.

The activities for marking the Fifth United Nations Global Road Safety Week in Kosovo have been organized by College Tempulli and Kosovo Association of Motorization "AMRKS" with the support by Ministry of Infrastructure and Transport, Kosovo Police and Kosovo Forum for Road Safety.

Agenda:

6 May 2019 - Overview of activities within the Fifth United Nations Global Road Safety Week and launch of six road safety campaigns.

7 May 2019 - Online distribution of the questionnaire in order to get citizens' opinion about the factors that can contribute to improving the current road safety situation.

8 May 2019 - Roundtable: # SpeakUp - Everyone can be a leader for road safety.

10 May 2019 - The Central Manifestation of the seventh edition of the activity "Road Safety", where elementary and lower secondary school students from different municipalities of Kosovo compete with bicycles, intended to test students' technical skills in driving bicycles.

THE SUSTAINABLE URBAN MOBILITY PLANNING OF PRISHTINA

Prishtina, 9 November 2018

The College Tempulli for many years now is contributing through various forms to many projects and activities within its professional and scientific activity in the traffic, transport and road safety engineering, both at local and central level. The individual and

institutional work and contribution of the College Tempulli is being assessed more every single day in the country. Today, the Mayor of Prishtina, Mr Shpend Ahmeti rewarded with a certificate of gratitude the Prof. Dr. Muhamed Krasniqi, the Director of the College Tempulli, for his contribution as a member of the Steering Council of the Sustainable Mobility Plan of Prishtina.

Professor Krasniqi said that the College Tempulli is ready to help the capital city in terms of traffic circulation regulation, traffic planning and design as well as other professional aspects that increase the security of the road circulation.

ONE STEP FURTHER TOWARDS INSTITUTIONAL COOPERATION

Prishtina, 2 November 2018

The College Tempulli, since its establishment, has continuously had institutional cooperation in many activities with the Ministry in charge of transport. Tempulli College signed the first Cooperation Agreement with the Ministry in 2006. Over the years, several training programs have been developed within the framework of existing agreements in accordance with the amendment and supplementation of the relevant legislation.

The meeting was held in the Cabinet of the Minister Pal Lekaj. During the meeting, the developments in road traffic and road transport were jointly reviewed by means of a professional conversation in order to address the problems faced by road users.

At the end of the meeting, Prof. Dr. Muhamed Krasniqi showed his gratitude to Minister Lekaj for his willingness and dedication to implement institutional arrangements in providing professional services for greater road safety.

LAUNCH OF “FOCUS ON DRIVING” CAMPAIGN

Prishtina, 1 November 2018

Today's conference organized by the Kosovo Police on the launch of the "FOCUS ON DRIVING" campaign, in addition to the Deputy Minister of Infrastructure, Senior Police Officers and other organizations, was also attended by the Director of College Tempulli, Prof. Dr. Muhamed Krasniqi. In his speech for the media, Professor Krasniqi, among others, urged to investigate even the most detailed and smallest factors that led to traffic accidents classified as "self-accidents".

This action should be taken particularly due to the fact that the injured, i.e. the victims, in these cases are the most productive age of the society, from 20 to 35 years of age.

INFORMATION DAY FOR DRIVING INSTRUCTORS

Prishtina, 27 October 2018

Today at College Tempulli was held an Information Day with candidates enrolled in Driving Instructor education. During this meeting, the trainees were informed of the teaching staff, the trainers, the theoretical and practical part of the modules/subjects, the education dynamics of this training program accredited by the National Qualifications Authority. The College Tempulli developed this national standard according to the National Qualifications Framework.

This is the 20th group of instructors, while the first group was 12 years ago. The College Tempulli, as the only institution accredited in the country for this education, is ending the two-year wait for the candidates interested to be qualified as driving instructors in our country.

College "Tempulli" has become a member of the European Federation of Road Traffic Victims – FEVR

Barcelona, 28-30 September 2018

The European Federation of Road Traffic Victims - FEVR is a Non-governmental organization which has over 25 years tradition and the purpose of its work is provision of support and assistance to road traffic victims, as well as conduction of various campaigns with the aim to reduce the risk and damages from accidents of the road traffic. Membership of the college "Tempulli" in FEVR has already been approved in the annual Board meeting of this organization held on 28-30 September 2018 in Barcelona, Spain. Although support and engagement of our partners did not lack, due to the political circumstances we have with the state of Spain, the attendance of representatives from the college "Tempulli" was impossible.

Since 2015, the college "Tempulli" has supported the campaign designed by FEVR, the World Day of Remembrance for Road Traffic Victims through the conduction of weekly activities commemorating all those who have lost their lives in traffic accidents.

Membership in FEVR opens opportunities for further enhancement of international cooperation with specialized institutions and organizations that continuously carry out awareness campaigns to improve road safety.

EUROPEAN DAY WITHOUT A ROAD DEATH MARKED FOR THE SECOND TIME IN KOSOVO

Prishtina, 21 September 2018

According to official data from Kosovo Police only during August of this year, there were 1450 accidents, of which 9 have been fatal.

Thanks to the joint work of our institutions dealing with road safety issues, the trend of the number of accidents has begun to decrease. Compared to last year this year, road safety marks a slight increase, with fewer accidents in all categories.

In order to further promote the security increase on the roads, College "Tempulli" and the Motoring Association of Kosovo "AMRKS" with the support of the Kosovo German Chamber of Commerce "OEGJK" through a round table discussion for the second time Kosovo marked the European Day without road death.

The European Day without road death was launched for the first time in 2016 by the TISPOL- European Traffic Police Network and since then supported by the European Commission. The main purpose of this initiative is that no person should die on the roads Europe during this day.

At the opening of the table also participated the Minister of Infrastructure Mr. Pal Lekaj. He said "A Task Force for Traffic Safety has already been established with experts from the Ministry and the external experts of the relevant fields. After the end of this committee's work we will come up with recommendations to provide concrete solutions regarding the reduction of the number of traffic accidents. Whereas, according to our ministry reports, I can say that there are positive signs of accidents reduction compared to the last year. "

The Director of College "Tempulli" Mr. Muhamed Krasniqi emphasized that during the summer months we had an aggravated road safety situation which was not only worrying but alarming, with a number of casualty and injured road accidents. According to him, looking at all categories of accidents, thanks to the joint commitment of our institutions dealing with road safety issues, the trend of the number of accidents has begun to decrease. Compared with last year, this year road safety marks a slight increase, with fewer accidents of all categories, and consequently the coercive measures taken by the Ministry of Interior, MI and Kosovo Police are yielding results on the ground.

The roundtable brought together representatives from local institutions and actors dealing with road safety and transport issues in the country, among others, issues such as:

- The role of governmental institutions and concrete measures to reduce the number of accidents in Kosovo's roads;
- Institution activities and action plans developed during this year as well as the impact of other institutions in the preparation and education of new generations ready to contribute to the management of traffic;
- Road Safety - Coordination of awareness activities and challenges in road traffic related to the technical condition of vehicles on the Kosovo roads.

Representatives from Kosovo Police, Council for road traffic safety , OSCE, College Tempulli, Kosovo Insurance Bureau, AMRKS and Auto Kaçandolli contributed at this table with their knowledge and experience.

CALL FOR INCREASED CAUTION DURING THE ROAD MOVEMENT WITH THE START OF NEW SCHOOL YEAR

Prishtina, 1 September 2018

Kosovo continues to be hit by the phenomenon of large numbers of accidents. Similarly, as with other years (especially during the summer months), as a result of numerous traffic accidents, the safety of the citizens' movement on the streets of the country has significantly decreased.

Nowadays the road movement of each participant is a challenge in itself that citizens are facing every day. Similarly, with the start of the new school year, the traffic becomes denser and consequently even more unsafe for children.

Just like the last year, this year as well, the Ministry of Education, Science and Technology together with the College of Applied Technical Sciences Tempulli, the Kosovo Road Safety Forum and the Kosovo Association of motorization AMRKS, call on all traffic participants for increased caution during the road movement.

This call for increased road safety addresses all motor vehicle drivers to be vigilant and to comply with the rules and traffic signs.

In school environments, added caution should be taken to increase child safety on their way from home to school and vice versa. Added caution and attention is required from the children when crossing the street and their moving into groups.

Parents are instructed to park their vehicles away from school and to walk to the school, otherwise, besides blocking the roads in the vicinity of schools, they inadvertently jeopardize pupil safety.

ROUNDTABLE DISCUSSION "ANALYSIS OF THE SAFETY SITUATION IN KOSOVO ROADS"

August 2018

A roundtable discussion was held at "Tempulli" College on "Analysis of the safety situation in Kosovo roads", aimed at checking the role of institutions in increasing traffic

safety and undertaking concrete measures in order to improve the situation of safe circulation on the roads of the country.

The roundtable was also attended by the Minister of Internal Affairs, Bejtush Gashi, who initially thanked the organizers for the roundtable, considering that this also helps directly the framework of the public communication policies through raising the awareness of the participants in road traffic.

"As Minister of Internal Affairs, I would like to express my concern about the current state of road traffic safety, by referring to the number of road traffic accidents, including a significant number of fatal accidents", stated Minister Gashi.

On this occasion, Minister Gashi pointed out that in order to prevent road traffic accidents and increase safety in road traffic, Kosovo Police has carried out many activities aimed at preventing traffic accidents.

"Referring to the current situation on traffic accidents and their consequences, the Ministry of Internal Affairs through the Kosovo Police has undertaken serious additional measures with the aim of improving the safety level, preventing traffic accidents and enforcing law in function of road traffic management and control. To this end, the Kosovo Police, as of 24 July 2018, has established the "TASK FORCE" for prevention of accidents in road traffic", stated Minister Gashi.

Lastly, Minister Gashi stated that the issue of safety in traffic is quite complex and as such requires inter-institutional treatment. Therefore, he highly appreciated the work of all institutions that are contributing to increased traffic safety. Mr Gashi stated that the MIA will remain committed to contribute at increasing the safety of citizens in road traffic, working closely with all competent and responsible institutional partners in this field.

Being aware of the numerous accidents, all the roundtable participants assessed that they should come up with concrete steps in order to reduce the number of traffic accidents.

COLLEGE TEMPULLI JOINS THE GERMAN-KOSOVO CHAMBER OF COMMERCE (GKCC)

Prishtinë, April 17, 2018

The German-Kosovo Chamber of Commerce was established on April 17, 2012 and since then it has steadily increased its operational capabilities, demonstrating responsibility for tasks that belong to it. Membership in GKCC for Tempulli College represents a further step in expanding the cooperation. This membership is of great importance for Tempulli College's activities because it provides the possibility of establishing new contacts and encouraging cooperation with German institutions and organizations, and consequently the acquisition of the German work culture and model.

The Management of the Tempulli College recently participated in the regular proceedings of the Assembly of the German-Kosovo Chamber of Commerce.

THE WINNING SCHOOLS OF KOSOVO IN THE SIXTH EDITION OF THE ACTIVITY “ROAD SAFETY”

Prishtina, 18 May 2018

For the six time in Kosovo were held the Republican Races “Road Safety”. In this activity participated 16 primary and lower secondary schools from the Municipalities of Prishtina, Ferizaj, Drenas, Peja and Klina with three pupils from grades 6, 7 and 8.

Competing pupils demonstrated their knowledge in recognizing signs and traffic rules through technical skills in bicycle riding.

At the opening of this activity participated the deputy Minister of Infrastructure Mr. Idriz Selimaj, deputy Minister of Internal Affairs Mr. Izmi Zeka, Deputy. Commander of the Kosovo Security Force General Enver Cikaqi, Deputy Mayor of Prishtina Mr. Selim Pacolli, Lieutenant Colonel Samedin Mehmeti and Major Jeton Rexhepi, Director of Directorate of Education in the Municipality of Prishtina Mr. Jonuz Salihaj, President of the Olympic Committee of Kosovo Mr. Besim Hasani, members of Kosovo Road Safety Forum and representative from the Italian Embassy in Kosovo.

Whereas after analysing pupils' result, were announced the Kosovo champions in the Sixth Edition of the School Magazine "Road Safety".

This activity was organized by the College of Applied Technical Science "Tempulli" and Kosovo Association of Motorization "AMRKS" in cooperation with the Ministry of Education, Science and Technology, Ministry of Infrastructure and with support from Kosovo Police, Kosovo Road Safety Forum, Municipality of Prishtina, Emergency Medicine Centre - Prishtina, Fire Brigade and Radio Television of Kosovo.

INTERNATIONAL CONFERENCE "MODERN ROAD TRANSPORT AND BUSINESS LOGISTICS"

Budva, Montenegro 14-15 May 2018

A two day conference "Modern Road Transport and Business Logistics" organized by the Chamber of Commerce of Montenegro, Ministry of Transport and Maritime Affairs of Montenegro, IRU Academy and Faculty of Machinery (mechanical engineering) from the University of Podgorica, was organized in Budva, Montenegro for two days in a row.

In addition to interesting presentations during this conference, this event was also a good opportunity for expanding the cooperation between Tempulli College and various institutions from the region.

In this spirit, several preliminary meetings were held with representatives of institutions and training centres from Montenegro, Bosnia and Herzegovina and Turkey.

On the second day of the conference, the IRU Academy has also organized a workshop with its accredited centres from the region.

The conference was attended by around 200 participants, including members of the government of Montenegro, Chamber of Commerce of Montenegro, officials from the IRU Academy, representatives of chambers of commerce, transport associations, international financial institutions, university professors, accredited training centres in the region, important companies engaged in passenger and freight transportation, logistic services, etc.

Except Tempulli College from Kosovo, this conference was also attended by the Ministry of Infrastructure, Transport and Forwarding Operators.

SIXTH EDITION OF THE TRADITIONAL ACTIVITY “ROAD SAFETY” - THEORETICAL PART

24 – 27 April 2018

This year, the College of Applied Technical Sciences “Tempulli” and Kosovo Association OF Motorization “ARMKS”, in cooperation with the Ministry of Education, Science and Technology and support of the Kosovo Road Safety Forum, organize for the sixth time the Traditional Activity “Road Safety”, which includes primary and secondary schools from various municipalities of Kosovo, as selected by MEST.

This year, a total of 16 schools from 5 municipalities participated:

Theoretical part of this edition commenced on 24 April 2018 and ended on 27 April 2018. During this week, the working groups visited schools selected by MEST and distributed colouring books **“How to move safely on the road”** and tests developed by traffic experts for evaluating knowledge of pupils with regards to the traffic rules and signs to pupils of grades 1, 2, 3, 4 and 5.

On Friday, Deputy Minister of Infrastructure, Mr. Idriz Selimaj, Officer within Ministry of Education, Science and Technology, Mrs. Fatime Jasiqi, and Director of College “Tempulli”, Mr. Muhamed Krasniqi, joined the Working Group in the school “Nazim Gafurri”.

THIRD NATIONAL CONFERENCE "CAUSES OF TRAFFIC ACCIDENTS FROM THE PERSPECTIVE OF STUDENTS"

Prishtina, 28 September 2017

In the light of continued efforts to increase the safety of the movement of students in the country's schools through various activities, the College of Applied Technical Sciences

Tempulli and Kosovo Association of Motorization "AMRKS" organized the Third National Conference "Causes of Traffic Accidents from the Perspective of Students".

In this conference, apart from the presentations by the representatives of the Road Transport Safety Council; Ministry of Education, Science and Technology; Tempulli College; AMRKS, the Kosovo Forum for Road Safety, there were also published the results of the research with the same topic, which was developed during the spring of this year with 3691 students of grades 11 and 12 of 23 high schools, from 10 different municipalities of the Republic of Kosovo.

According to the director of "Tempulli" College, Mr. Muhammad Krasniqi, through this awareness research there have been efforts to make the students aware of the existence of rules to be followed when leaving the house in order for them not to be endangered on the road.

Meanwhile, the Director of the Council for Safety on Road Traffic at the Ministry of Infrastructure, Mr. Burim Krasniqi said that the human factor is seen as the main cause of fatality accidents.

According to Mrs. Fatime Jasiqi from the Ministry of Education, Science and Technology, this research done in primary and secondary schools for identifying the causes of traffic accidents, can also serve as a guide to many educational institutions for the fact that there is a lack of information on road safety.

KOSOVO MARKS THE EUROPEAN DAY WITHOUT A ROAD DEATH

Prishtina, 21 September 2017

This year, our country became part of the most European countries, marking the European Day without a road death, as well. The College of Applied Technical Sciences Tempulli and Kosovo Association of Motorization "AMRKS" organised a roundtable with representatives from the Ministry for the Kosovo Security Forces, Kosovo Police, Fire Brigade, Centre of Emergency Medicine, Kosovo Forum for road safety, traffic experts, etc. The roundtable brought together for discussion the representatives from local institutions and actors dealing with road safety and transport issues in the country, whereby among others were also discussed issues such as:

- Actions and concrete measures of the institutions, with the aim of decreasing the traffic accidents in the roads of Kosovo;
- Difficulties in the provision of emergency services in case of road and railway accidents;
- Role of the driving schools on the proper training of young drivers and the impact of media on sensitizing drivers to eliminate road deaths as a consequence of accidents.

Muhamed Krasniqi from College "Tempulli", qualified the road safety as alarming, by adding that accidents with injured and victims are common.

While, Colonel Sheremet Ahmeti from the Kosovo Police, said that this institution is committed in the provision of the safety for the citizens of Kosovo. He said that the months: June, July and August marked a high number of accidents with fatality.

Lieutenant-colonel Afrim Veseli from nga MKSF said that KSFs are not the first link to provide safety in the road. However, he said that they possess a big fleet of vehicles that are participants in the traffic and their contribution in this direction is that these vehicles are technically in order.

CALL FOR EXTRA CAUTION DURING TRAFFIC MOVEMENT ON THE START OF NEW SCHOOL YEAR

Prishtine, 28 August 2018

According to official data of the Kosovo Police, in the period January-July 2017, 71 people died from traffic accidents and over 7206 others were injured.

Given the high traffic risk, this summer's accidents, but also the beginning of the school year where traffic becomes denser and consequently, more unsafe for children, the Kosovo Police, the College of Applied Technical Sciences Tempulli and the Kosovo Association of Motorization AMRKS, call on all traffic participants for extracautious, while driving on the road. This call, for increased road safety is aimed at all motor vehicle drivers, to be vigilant during their movement on the road and to act by respecting the rules and traffic signs in entirety and to be cautious and responsible regarding the presence and the movement of other traffic participants. Caution should be increased, especially in school environments, in order to increase child safety on the route from home to school and vice versa. Caution and added attention is required from the children when crossing the street and during their movement in groups.

Owing to the lack of proper education of children's correct traffic behaviour, experts from these institutions provide some guidance and recommendations with concrete measures for parents and children on the eve of the start of the new school year, based on current research conducted with pupils of the local schools regarding child safety on the street:

- Parents are advised to always accompany children under the age of 10 from home to school and vice versa, except when the school is located in the vicinity and the children will not have to cross any roads.

- -Parents should ensure that their children know the road safety rules and make sure that they know the traffic signs that are set for them.
- -Accompanying children from home to school and vice versa should be done unless parents ensure that children know the route sufficiently and fully practice the instructions by moving safely.
- -Parents should instruct the children to use the same route every day and avoid shortcuts and unnecessary intersections, parking lots, etc.
- -Children should have comfortable clothing to move freely (not clothing that restricts their movement). Preferably, fluorescent strips (bright) should be placed on children's backpacks or on their clothes in order to be easily noticed by other participants in the traffic.
- -Instruct and teach children not to move on the road between parked vehicles, construction sites or other obstacles on the road.
- -Parents are advised to provide the correct schedule of the start and end of the lessons by the teacher or guardian and daily monitor the time and safety of the child's movement.
- -Always instruct and teach your children that during the crossing, they should always check both sides of the road before crossing to the other side of the road. The road should not be crossed even when the traffic lights indicate the signal for free passage, without looking at both sides of the road again and after making sure then they can cross to the other side of the road.
- -Children should be instructed and taught not to stop on the road and if they feel unsafe to seek help from adults.
- -Parents should ensure that the transport of their children from home to school and vice versa is done regularly and safely by licensed minibuses and other motor vehicles.

Finally, all the parents are kindly asked not to block the school entrances with their vehicles, when accompanying their children. Parents are instructed to park their vehicles away from school and walk to the school, on the contrary, in addition to blocking roads in the school vicinity, they will accidentally put the pupils' safety at risk.

THE CENTRAL MANIFESTATION WITHIN THE FRAMEWORK OF THE FIFTH EDITION OF THE "ROAD SAFETY" ACTIVITY

Pristina, 12 May 2017

The College of Applied Technical Sciences "Tempulli" and Kosovo Association of Motorization "AMRKS" in cooperation with the Ministry of Science, Education and Technology and with the support from Council for Safety on Road Traffic, Kosovo Police, Municipality of Prishtina, Kosovo Forum for Road Safety, organized the traditional competitions of students with bicycles regarding traffic knowledge for the fifth time. This year the national competition "Road Safety" was attended by pupils from primary and lower secondary school from 16 municipalities of the Republic of Kosovo.

During this activity, pupils from primary and lower secondary school showed their skills in bicycle riding. At the same time, through support and activities for the SaveLives #SlowDown campaign, they sought more road safety and full obedience of traffic signs and rules.

At the opening of this event, a keynote speech was delivered by - Director of "Tempulli" College, Mr. Burim Krasniqi - Acting Director of the Council for Safety on Road Traffic - Ministry of Infrastructure, Mr. Besim Hasani – President of the Olympic Committee of Kosovo.

KOSOVO MARKS THE FOURTH UN GLOBAL ROAD SAFETY WEEK

Prishtina, 8-14 May 2017

The Fourth UN Global Road Safety Week has been marked from 8-14 May 2017.

The Week has been focused on speed and what can be done to address this key risk factor for road traffic deaths and injuries. Speed contributes to around one-third of all fatal road traffic crashes in high-income countries, and up to half in low- and middle-income countries.

The activities for marking the Fourth UN Global Road Safety Week in the Republic of Kosovo have been organized by all institutions of the country which have a mandate and deal with the traffic safety issues such as: Council for Safety on Road Traffic, Ministry of Education, Science and Technology, Kosovo Police, Kosovo Forum for Road Safety, College of Applied Technical Sciences "Tempulli", OSCE and Kosovo Association of Motorization "AMRKS".

The agenda of weekly activities in Kosovo can be found below:

7 May 2017 (Sunday), at 10:00, at the "Zahir Pajaziti" square - Press Conference for launching the weekly activities within the Fourth UN Global Road Safety Week.

8 May 2017 (Monday) - Interviews will be conducted in all electronic and written media, where in addition to discussing the history of this day, the current state of road safety in Kosovo will also be discussed and the measures to be taken in order to improve the road safety movement.

10 May 2017 (Wednesday)- Distribution of colouring books "How to move safely on the road".

11 May 2017 (Thursday), in Mental Health Centre – Prishtina and SOS village – Lecture on road safety.

12 May 2017 (Friday), at 12:00, at the “Zahir Pajaziti” square- Prishtina - The Central Manifestation within the Fifth Edition of the traditional activity "Road Safety", where lower primary and secondary school students show their skills in riding a bicycle.

13 May 2017 (Saturday) - Development of surveys in different regions with drivers of motor vehicles, in order to evaluate their knowledge of the constituent elements of motor vehicles.

14 May 2017 (Sunday), at 10:00, at the “Zahir Pajaziti” square - Press Conference for closing the activities.

THE SECOND NATIONAL CONFERENCE ON ROAD SAFETY "IDENTIFYING THE SAFETY OF STUDENT'S MOVEMENT FROM HOME TO SCHOOL AND VICE VERSA"

Today, the College "Tempulli" organized the Second National Conference on Road Safety "Identifying the safety of student's movement from home to school and vice versa".

Panellists at the conference included representatives from the Ministry of Education, Science and Technology, Ministry of Infrastructure, Kosovo Police, College "Tempulli", the OSCE and the Kosovo Forum for Road Safety.

During the Conference was published the research with the same title, which was developed with primary and lower secondary schools from different municipalities of the Republic of Kosovo, selection of which was done by the Ministry of Education, Science and Technology.

According to the panellists, with this research was found a very good sample in order to make responsible institutions reflect on road safety.

The research in question is a contribution of work and cooperation of the College "Tempulli" with the Ministry of Education, Science and Technology, Kosovo Police, Kosovo Association of Motorization "AMRKS" and Kosovo Forum for Road Safety.
